To

Dear Hiring Manager

Hello,

I am writing to express my interest to work in your company. Currently I have finished my graduation. Appearing for M.Sc specialized in STATISTICS.

I am interested in having exposure in this industry by joining your company to enhance my educational capabilities which I have earned during my studies, by offering my maximum level of potential to provide better quality service through my hard work and knowledge.

With my formal education paired with my skills, I am eager to contribute my abilities to your company. I believe I can help this place meet its goal of providing only the most accurate and timely effective services.

I would like to meet you to know the more opportunities in your company. I am looking forward hearing from you.

Sincerely,

Asavari Deshmukh

ASAVARI DESHMUKH

S.S.C.	A.B. Girls High School, Chalisgaon	State Board	2015	91.80%

PROJECTS

A Statistical Study on “Selfitis: The Disease Of New Era”

Taking selfies is not a problem until it has some limitations but if it crosses its limits then it becomes a serious issue.

In this project, we have examined the behavioural changes of individuals who are habitual to take selfie in their usual lifestyle. To spread the awareness in the society and to minimize the excess usage of selfies, we undertook this project.

Here, we used statistical tools like graphical method, correspondence analysis, factorial design, Mann-Whitney test.

- **Results:**
- Out 318 females, almost 79% females take selfies in Nashik city, while only 50% males taking selfie.
- The combination of people taking regularly selfies with three or more than three selfies may cause selfitis.
- There are 38% people in our sample which are either on chronic stage or acute stage, while 62% people are tending to borderline.
