## OBJECTIVE

Versatile data analyst with a hunger for challenges. My analytical approach to problems and a goal-oriented mindset help me find creative solutions to any problem. Acquiring experience in a number of very diverse fields such as business intelligence and data engineering.

## EDUCATION

- **School of Mathematical Sciences KBCNMU Jalgaon**  
2023  
MSc in Industrial Statistics
- **Ahmednagar college ahmednagar**  
2021  
Bachelor's in Statistics
- **R.B.N.B. College Shrirampur**  
2018  
HSC

## SKILLS

- Python, Machine Learning, Statistics, SQL, R language, Data visualisation, Good communication, SAS base Software.

## PROJECTS

- **Breast Cancer type detection using Supervise Machine Learning.**  
The objective was to predict the class of Cancer base on available medical data. I used Various Classification techniques using python and 40% Scikit Learn Library and using cross validation score choosed Logistic Regression.I got 98.1285% Accuracy for test data Using Logistic Regression.

## ACHIEVEMENTS & AWARDS

- Physics exhibition winner in college. Badminton Player in College. Chess Player.

## PERSONAL DETAILS

- Date of Birth : 21/04/2000

## RELEVANT COURSEWORK

- Regression Analysis, Statistical Inference, Discriptive Statistics, Clinical Trials, Design of Experiment, Probability Distribution, TQM,SPC.

## ONLINE COURSES

- 1.Data Science: Python for Data Analysis 2022 Full Bootcamp.(Udemy)
- 2.Learn MySQL - For Beginners.(Udemy)
- 3.Machine Learning- From Basics to Advanced.(Udemy)
